

We are KS1 designers

investigate, purposeful, develop, design, plan, adapt, build, evaluate, display!

- describe in some detail how things are made.
- describe the product (basic features).
- describe what something is for and what it has to do.
- record our ideas using drawings with labels.
- record our ideas using writing.
- · record our ideas using technology.
- join materials together (using simple joining techniques).
- use different (simple) tools safely and carefully.
- say at least one thing that would make something better (to improve a product).
- consider its purpose for the intended audience.
